

# Soap Sponges

Available in: ES

## Product Benefits

- › Healthcare sponges are recyclable, disposable and for sanitary use. They produce soap when they come in contact with water
- › With added neutral pH (5.5) dermatological gel to help protect the skin while enjoying a pleasant fresh scent
- › As these sponges are disposable, the risk of cross infection and contagious diseases is radically reduced
- › The sponge contains the right amount of soap to completely wash an adult

## Key Features

- › Ideal for skin care and cleaning.
- › Soft and pleasant to the touch. Protects the skin, non-irritant
