

Saline Nasal Spray

Alvita Saline Nasal Spray is a sterile isotonic solution used in the treatment of nasal congestion and nasal irrigation. It helps remove dust, pollen and outdoor allergens by thinning the nasal mucus. This helps the breathing to return to normal.

Available in: TR

Product Benefits

- › Contains 0.9% Sodium Chloride and qs 25 mL Sterile Water.

Key Features

- › Sterile isotonic solution
- › Flathead spray pump
- › Recommended for the treatment of nasal congestion and irrigation of the nasal cavity.
- › The mechanism of action is to thin the nasal mucosa, neutralise the acidic environment and remove outdoor allergens such as dust and pollen from the nasal environment.
- › Helps to alleviate congestion and allows breathing to return to normal.
- › Does not lead to addiction. Can be used with other medicines.
